INDUSTRIALYZER live liquid club

KOMBINATION

INDUSTRIALYZER

INDUSTRIALYZER live

Anyone who is currently scratching their heads about the current state of the technoscene will have heard the name Industrialyzer chanted from the rooftops. In our humble opinion, Ricardo is single handedly responsible for re-booting the Techno sound with the help of Cisco from the Advent. His sound could be described as Minimal, but Dirty and Fast. Heavy but clean and bursting with crazy production and musical ideas. His releases on Drumcode, Kombination Research, and Bush records have sent crowds wild all over the globe. Now it's out turn to witness his incredible fast paced Liveset.
